An effective technique for figuring out a value is to send out a survey to your current customers. If these prospects have already bought an e-book from you, ask for their opinion in terms of price. Do this by creating a gross sales web page for the brand new e-book, but don't embrace a price on that page. As an alternative, add quite a lot of links to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

Another technique is to check out prices by making a number of duplicate sales pages with completely different prices on every page. Be sure that your gross sales copy is precisely the identical on

every web page, and includes your selling-handle sentence. Then work out for each page the conversion ratio between guests to your web site and gross sales of your book. This will let you know what your optimum price is.

In the end, when you've written a e-book that solves a downside or presents a brand new approach, your book will bring in both traffic and profits.
