An efficient method for figuring out a price is to ship out a survey to your present customers. If these customers have already bought an e-book from you, ask for their opinion when it comes to price. Do this by making a gross sales page for the new e book, but do not embody a value on that page. As a substitute, add quite a few links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other technique is to test out costs by creating a number of duplicate gross sales pages with totally different costs on each page. Make sure that your gross sales copy is strictly the same on every web page, and includes your selling-deal with sentence. Then work out for each web page the conversion ratio between visitors to your web site and gross sales of your book. This will let you know what your optimum price is.

In the end, if you've written a e-book that solves a drawback or presents a new approach, your ebook will usher in both traffic and profits.
