Do that by making a sales web page for the new ebook, however do not include a value on that page. One other technique is to check out costs by creating a number of duplicate sales pages with completely different costs on each page. Be sure that your gross sales copy is strictly the similar

on each page, and consists of your promoting-handle sentence. Then determine for every web page the conversion ratio between visitors to your site and gross sales of your book. This can tell you what your optimum price is.

Finally, if you've written a guide that solves a downside or presents a brand new approach, your e book will usher in both site visitors and profits.
