Moreover promoting your books assiduously online, there are a number of other strategies that can help you sell extra books.

An efficient method for determining a price is to ship out a survey to your present customers. If these customers have already bought an book from you, ask for their opinion in terms of price. Do that by creating a sales page for the brand new ebook, but don't embody a worth on that page. As a substitute, add quite a few hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other strategy is to check out costs by creating a number of duplicate sales pages with totally different prices on every page. Ensure that your gross sales copy is precisely the identical on each

web page, and includes your promoting-handle sentence. Then work out for each page the conversion ratio between visitors to your web site and sales of your book. This may tell you what your optimum value is.

In the end, if you've written a e-book that solves a downside or presents a brand new technique, your e-book will herald both traffic and profits. So remember to write that selling-handle sentence that sums up what downside your book solves and what the advantages of your 2006 ebook will probably be to the shoppers who buy it. And then watch your market come to you!
