piece of sales and promotional material, and every time anyone asks you about your ebook.

Apart from promoting your books assiduously on-line, there are a number of other methods that may enable you to promote more books.

One is to offer one thing away totally free with your book, equivalent to a useful bonus item. Or bundle a number of ebooks below one value, which lowers the price for each book if they have been offered separately.

An effective technique for figuring out a value is to send out a survey to your current customers. If these customers have already purchased an e-book from you, ask for his or her opinion when it comes to price. Do that by creating a gross sales web page for the brand new ebook, but do not embrace a price on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another technique is to test out costs by creating a variety of duplicate gross sales pages with totally different costs on every page. Ensure your gross sales copy is strictly the identical on each page, and contains your selling-deal with sentence. Then figure out for each web page the conversion ratio between guests to your website and gross sales of your book. This may inform you what your optimum value is.

In the end, in the event you've written a e book that solves a downside or presents a brand new method, your e-book will herald each traffic and profits.
