Besides promoting your books assiduously on-line, there are a number of different strategies that may allow you to sell more books.

One is to provide something away for free with your guide, reminiscent of a worthwhile bonus item. Or bundle a number of ebooks beneath one price, which lowers the price for each e-book in the event that they had been offered separately.

An efficient approach for figuring out a price is to ship out a survey to your current customers. If these customers have already purchased an book from you, ask for his or her opinion in terms of price. Do that by making a sales page for the new book, but don't include a price on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

Another technique is to check out costs by making a number of duplicate gross sales pages with totally different costs on each page. Make sure your sales copy is strictly the identical on every

web page, and includes your promoting-handle sentence. Then determine for every page the conversion ratio between visitors to your website and gross sales of your book. It will tell you what your optimum value is.

Finally, in the event you've written a guide that solves a drawback or presents a new technique, your e-book will usher in each site visitors and profits. So be sure to write that selling-deal with sentence that sums up what downside your guide solves and what the advantages of your 2267 ebook might be to the shoppers who buy it.
