An efficient method for figuring out a value is to send out a survey to your present customers. If these clients have already bought an e book from you, ask for their opinion by way of price. Do that by creating a sales page for the brand new e book, but don't embrace a value on that page. Instead, add quite a few links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out prices by creating a number of duplicate gross sales pages with different prices on each page. Ensure your sales copy is precisely the same on every page, and consists of your promoting-handle sentence. Then figure out for each page the conversion ratio between visitors to your web site and gross sales of your book. This will let you know what your optimum price is.

Ultimately, if you happen to've written a e book that solves a drawback or presents a brand new

method, your guide will herald both traffic and profits. So be sure you write that selling-deal with sentence that sums up what drawback your ebook solves and what the advantages of your 380 book can be to the shoppers who buy it. And then watch your market come to you!
