An efficient technique for determining a value is to ship out a survey to your current customers. If these customers have already purchased an e-book from you, ask for their opinion in terms of price. Do this by making a gross sales web page for the new guide, but don't embrace a price on that page. As an alternative, add a variety of hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another strategy is to check out costs by making a number of duplicate gross sales pages with completely different costs on each page. Make sure that your gross sales copy is strictly the similar on each web page, and consists of your promoting-handle sentence. Then figure out for every web page the conversion ratio between guests to your site and gross sales of your book. This can inform you what your optimum price is.

Finally, in the event you've written a ebook that solves a downside or presents a new technique, your guide will usher in both traffic and profits.
